ELECTION IN CANADA

Sir John Macdonald Returned to Power.

BUT A MUCH REDUCED MAJORITY

Some Details as to the Returns and How the Ballots Were Cast in the Dominion of Canada Yesterday—Returns Up to the Latest Received.

OTTAWA, Ont., March 6.—The Canadian election which occurred yesterday was of great interest. It was made upon a list of voters made two years ago and not revised since. It contains many names of dead men and absentees, so that the "cemetery vote" will be an important factor in deciding whether Canada wants unrestricted reciprocity or not. There will be plenty of personation. The dead will arise and vote Tory or Liberal, as the case may be.

The lists are final, and any man whose name appears there and who is willing to make oath that he is the person in whose name he claims the right to vote will receive a ballot paper. Many bogus votes are polled by men who succeed in deceiving the representatives of opposing candidates. Each scrutineer at a poll is made to believe that the man who means to personate a dead man or an absentee is going to vote for his candidate, and thus the personator gets off without being challenged.

Any man who earns \$300 a year, or owns or rents \$100 worth of property, is entitled to vote, but no man can vote unless his name is upon the list of voters made up by the revising officer two years ago. But in the northwest territories, every male resident for twelve months, 21 years old or over, not an alien nor an Indian, can vote.

This disfranchisement of young men who have attained their majority in the last two years is strongly urged as an argument against Sir John Macdonald's government; because, had he deferred the election a short time these young men could be enrolled and could vote. The Liberals charge that snap judgment has been taken upon the young men of Canada.

The Canadian house of commons elected yesterday has a natural life of five years, and contains one member for every 20,000 voters. On this basis the house recently dissolved numbered 215 members, Ontario 92, Quebec 65, Nova Scotia 21, New Brunswick 16, Manitoba 5, British Columbia 6, Prince Edward Island 1 and northwest territories 4.

Salary of members of the house is \$1,000 per session of thirty days or more, and ten cents per mile travel.

The polls closed all over the Dominion at 5 p. m. In the returns, comparisons are made with the representatives in the late house of commons just before dissolution. In that body the Conservatives had 132 members, Liberals eighty-one and three vacant seats. The Liberals, to overcome this, must, therefore, make a net gain of twenty-six seats.

It was one of the hottest campaigns of Sir John Macdonald's forty years of political life. Sir John Macdonald has again been returned to power, but with a sadly reduced majority. The majority of 51 which he had when he dissolved parliament, is diminished to about 14.

In Ontario his former majority of 36 is reduced to less than 5 in Quebec, which has usually been his great stronghold, his majority of 15 is changed to a minority of about 7, or a net loss of over twenty seats.

The maritime provinces, where the Liberals were sanguine of making a clean sweep, disappointed all their expectations, and were virtually the means of sustaining the government. Little change was expected in the northwestern and Pacific provinces where the government had a majority of eleven in the last parliament.

There were a number of surprises in the election returns. The Hon. John Carling, minister of agriculture, was defeated in London, Ont.; the Hon. George E. Foster, minister of finance and former minister of marine and fisheries, was defeated in Kings county, N. B., and the Hon. C. C. Colby, president of the city council, was defeated in St. Catharines, Que. The other cabinet ministers were re-elected.

Sir John Macdonald polled a surprising vote in Kingston where the Liberals expected to defeat him. His majority of 17 at the last election is increased this time to over 300.

The Hon. Peter Mitchell, minister of marine in the last Liberal cabinet, was defeated in Northumberland, New Brunswick. All the other prominent Liberal leaders were defeated.

In Nova Scotia, returns from eleven out of twenty-one constituencies show the election of seven Conservatives and four Liberals—a Liberal gain of two seats.

Returns from six out of sixteen constituencies in New Brunswick show the election of six Conservatives—a Conservative gain of two.

The following cabinet members have been re-elected: Sir John A. Macdonald, premier; Sir John Thompson, minister of justice; Sir Hector Langevin, public works, and the Hon. Charles H. Tupper, marine and fisheries.

The Hon. John Carling, minister of agriculture, and the Hon. C. C. Colby, president of the city council, are defeated.

In Manitoba four constituencies out of five, elected one Liberal and three Conservatives; no gain on either side.

Prince Edward Island, six constituencies complete, elected four Liberals and two Conservatives; no gain on either side.

British Columbia returns indicate that the Conservatives will carry all of the four constituencies—no change from the last house.

Returns from the northwest territories indicate that the government will carry all of the four constituencies there; no change from the last house. The Conservatives have, therefore,

elected 108 members and the Liberals sixty-nine. The Liberal net gain is thirteen; and, as it was necessary for them to make a clear gain of twenty-six seats to defeat the government by a bare majority, it is safe to say that the Macdonald government is sustained by anywhere from 10 to 15 majority.

CIVIL PRIVILEGES.

England states that it gave them the same Civil Privileges.

LONDON, March 6.—The British government, under pressure from merchants in the Brazilian trade, is taking steps to obtain for Great Britain an assurance of commercial privileges in that country equal to those granted to other nations. English merchants are afraid the reciprocity treaty between Brazil and the United States will divert much of the trade to the latter country. The newspapers here print many attacks on Gen. Da Fonseca, accusing him of nepotism and other offenses.

THE DOCK LABORERS' STRIKE.

The dock laborers, in exchange for some trifling concessions, have raised the boycott on federation vessels, and will resume work. The virtual failure of the movement is attributed to lack of mutual support among the various unions.

The coal-tippers at Cardiff are still out, but are disused to compromise, unless the railroad engineers, and other labor unions will strike in their support, which is very unlikely, in spite of Tom Mann's vigorous efforts in that direction. Mann last night appealed to the laboring classes to stand together. In his speech he declared that only \$2,000,000 out of the \$3,000,000 wage-workers in Great Britain were organized. This was sufficient to account for all the failures of labor.

FIGHT IN RUSSIA AND FRANCE.

The union of Russia and France in a protest against English predominance in the Egyptian judiciary is viewed with keen interest by English statesmen, as Russia has never before interested herself in the affairs of Egypt, and has more than once expressed willingness that in a division of the Ottoman empire a satisfactory Russia, Egypt should fall to England. The present move is, therefore, taken to indicate that Russia is desirous of obliging France, the country really interested.

A DISPUTE IN SULLING CUBA.

A dispatch from Madrid says that in a discussion on the Cuban affairs in the Spanish cabinet, the sale of that country to the United States was considered. The weight of opinion was decidedly adverse to any such negotiations.

CATECHISMS.

The ministry of Uruguay has resigned and a cabinet of conciliation has been formed.

The Vatican has received numerous requests from America to re-instate Dr. McGlynn, but it is not true, as reported in the press, that Cardinal Gibbons has taken sides in the matter.

Archbishop Williams, of Boston, has requested the pope not to impose the honor of a cardinalate upon him. The reports in American papers that the pope contemplated such a step are unfounded.

The Vienna correspondent of The London Times states on good authorities, that recent negotiations carried on at the courts of Germany, Italy and Austria, insure a renewal of the triple alliance.

The young Czechs and German Liberals have, as far as results are known, been successful in sixty-four rural elections. This insures a majority for Count Von Taaffe's premier. The young Czechs will probably have forty members in the new reichsrath, against two in the last parliament.

Bishop Reeves of the diocese of Down and Connor and Dromore has issued a letter practically excommunicating Catholic supporters of Mr. Parnell. The letter causes considerable excitement. The bishop characterizes Mr. Parnell's adherents as propagators of public scandal, who have voluntarily associated themselves with those to whom it is unlawful for priests to administer the sacrament.

RUSSIAN COTTON SCHEME.

A Possibility, in Central Asia, of Cutting Out the Demand for Our Product.

CHICAGO, March 6.—Edward M. Goujon, master of horse to his imperial majesty, the Czar of Russia, is in Chicago, on route to St. Petersburg. With the approval of the czar, he came to this country early last year and purchased a plantation near Shreveport, La., for the purpose of studying the theory and practice of cotton raising. He believes that Central Asia offers great possibilities for the raising of the cotton plant, and he is now on his way back to the Russian dominions to put his knowledge into practice.

He and Prince Dalgorny already own large plantations in the Asian cotton belt, which they will at once plant in cotton, assisted by some Louisiana cotton planters as overseers, and with some negroes who will be taken there to tend the natives. Possessed of the imperial favor and confidence, they have the promise that the tariff on American and Indian cotton will be made prohibitory, and that transportation facilities will be afforded between their plantations and the markets not only of Russia but also those of other European countries. The price of labor in Central Asia is very low, and Mr. Goujon believes that, in an open contest, he can drive out American cotton from European markets, and yet make an immense profit.

ARRESTED FOR EMBEZZLEMENT.

MILWAUKEE, March 6.—A traveling salesman by the name of Mack was placed under arrest here yesterday on the request of the Boston police. Mack is charged with the embezzlement of over \$1,000 from the firm of A. D. Cairns & Company, wholesale jewelers, of that city.

BAIL PITCHER ASSIGNED.

BOSTON, March 6.—The Herald states that the Boston American Base Ball Association club has signed Pitcher Charles G. Buffington for the coming season.

Messages Sent to Congress.

WASHINGTON, March 6.—The president sent to the senate during the Fifty-first congress which began the day Mr. Harrison was inaugurated, 567 messages containing nominations for office. The number of nominations, however, was much larger than the number of messages, many of the latter containing more than one nomination. Of the nominations sent in, the senate confirmed all but nine. These are: United States District judge, James H. Beatty, of Idaho; coinier of the mint, Louis Desmarais, at New Orleans; collector of customs, James H. Young, for the district of Wilmington, N. C.; register of the land office, Thomas E. Olesgarde, at Minot, N. Dak.; postmasters, G. E. Norris, Brighton, N. Y.; G. W. Ferree, Edgar, Neb.; John Clinton, Brownsville, Tenn.; James Hill, Vicksburg, Miss.; and J. H. McLaughlin, Lynchburg, Va.

Complimentary Dinner.

WASHINGTON, March 6.—The members of the senate who served on the senate committee on claims, of which Senator Spooner was chairman, and others of his colleagues in the senate, tendered him a complimentary dinner last night at Chamberlain's. The guests were the president, vice president, Secretary Rusk, and Senator Sawyer. The hosts were Senators Mitchell, Quay, Dolph, Hoar, Stewart, Higgins, Wilcott, Gray, Faulkner, J. K. Jones, Puseo, Allen, Morrill, J. P. Jones, Allison, Chandler, Manderson, Butler, Gorman, Vest, Cameron and Hawley. The dinner was served at 8 o'clock, after which several hours were spent in speechmaking.

Pool Room Rattled.

NEW YORK, March 6.—The pool room owned by Jack McAuliffe, the champion light-weight prize fighter, in Brooklyn, was raided yesterday afternoon by the police. McAuliffe and six employees were held in \$1,000 bail each. The pool room had been opened only a few days and was to be the only place of the kind in Brooklyn.

Killed by a Coal Car.

TAMPAQUA, Pa., March 6.—The bottom of a coal car of a rapidly moving train on which Samuel Holderman and another brakeman were standing suddenly gave way yesterday carrying Holderman beneath the car, where he was crushed to death. His comrade escaped a similar fate by catching hold of and clinging to the crossbar of the car.

Two Sleepers Burned.

CHATTANOOGA, March 6.—A bad wreck occurred yesterday on the Cincinnati Southern at Sleepy Hollow, eighty-three miles north of here. The sleeping cars were burned. A hundred feet more and all would have gone over a trestle one hundred feet high. Several persons were injured, none seriously.

Light-Weight Fight Arranged.

NEW ORLEANS, March 6.—Audy Ewens states he has consented to meet Maher, the Australian light-weight champion now in this country, before the Olympic club for a \$2,000 purse. The fight will be at 133 pounds weight at the ringside, and will take place about April 15.

Trichinosis.

IDA GROVE, Iowa, March 6.—The trichinosis cases near this city, the result of eating bologna sausage, are becoming more serious. One more death has occurred and four new cases are reported. There are now seventeen persons whose recovery is doubtful and four have died.

Arrested for Embezzlement.

NEW YORK, March 6.—Henry F. Le-mere, of Chicago, was arrested here yesterday, charged with the embezzlement of \$500 from F. T. Massas & Co., of Chicago, by whom he was formerly employed. At his examination to-day he was held for extradition.

SCHOOL BUILDING BURNED.

Two Students Perish in the Flames, Being Unable to Escape from the House.

MONROE, N. C., March 6.—Fire was discovered in the Monroe high school early yesterday morning. An alarm was at once sent in and the students of the school were aroused as soon as possible, but it was too late to save the building.

Two young men, Thomas E. Pemberton, of Little Rock, Ark., and Albert Bost, of Boston, N. C., perished in the flames. At the first alarm the young ladies, who roomed on the ground floor of the school building, made their escape. The young men remained on the third floor, and when the alarm reached them the means of escape were partially cut off, and the building was filled with flames and smoke.

Pemberton was not seen at all and his remains were found on the wire springs of his bed, which leads to the belief that he did not wake at all. The school building and furniture were entirely burned up.

AWFUL MASSACRE.

Several Hundred Madagascans, Including Women and Children, Slaughtered.

PARIS, March 6.—News of a horrible massacre comes from Madagascar. Ramiasatra, governor of the province of Belanand, resenting a petition from the populace to the government to defend them from cruelties, massacred 278 persons, including men, women and children, belonging to the leading families.

The slaughter continued for several days. The agonies of the victims were in many cases protracted. Sometimes their limbs were gradually dismembered, their heads were sawn off, and their bodies were thrown to the dogs. Many of the women were outraged. The survivors were forced to erect a trophy composed of the heads of the victims. Popular fury has caused the government to announce that the offenders will be punished.

A NEW ENGLAND SNOWSTORM.

Telegraphic and Railroad Communication Interrupted.

BOSTON, March 6.—Snow began falling here early Wednesday morning and continued all day, accompanied most of the time by a high wind. From twelve to fourteen inches fell, the largest fall of the winter. There has been but little delay to traffic.

From various parts of New Hampshire, Maine and Vermont a heavy snow fall is reported, which has badly blocked the roads and rendered travel almost impossible in places.

At Newport, R. I., the snowstorm lasted about twenty-four hours and left a heavy coating on the ground. Wires are heavily loaded with ice and telegraphic communication is more or less interrupted.

SITUATION IN HAWAII.

Uncertainty of Political Affairs Seriously Injuring Business.

SAN FRANCISCO, March 6.—A prominent Honolulu merchant, who arrived on the steamer Wednesday, brings news of a conspiracy formed by Col. Ashford to seize the Hawaiian government and make the queen a mere figurehead. The scheme was similar to one engaged in by Wilcox four years ago. The American minister learned the full details of Ashford's scheme, and arranged to have marines landed from the Mohican and Ironsides in case any attack should be made on the government house. The uncertainty of political affairs on the island is injuring business and causing great uneasiness among the conservative element.

Business in Chili at a Standstill.

NEW YORK, March 6.—A firm engaged in the South American trade received advices from Chili yesterday to the effect that business there is generally suspended. The coast towns have been deserted to a large extent by the citizens, who have taken to the hills, fearing a bombardment. A wounded sailor from the insurgent man-of-war Esmeralda, who is in the hospital at Valparaiso, says twenty-three men were killed and injured by a shell from the shore batteries during the recent attack. The running of trains on the various railroads has been almost entirely stopped. It is rumored that Santiago is threatened with a water famine.

Gibson Gives Zouf.

CHICAGO, March 6.—Mr. George Gibson, secretary of the whisky trust, arrived from Peoria yesterday and gave bonds in the four new indictments turned in by the last grand jury against him. The indictment originally returned was dismissed. The new ones charges conspiracy with some person or persons unknown to destroy the property of the Shufeldt Distilling company, and having in his possession dynamite, gun powder, nitro-glycerine or other explosives for the purpose of destroying life and property.

The Moll Case.

DEFLANCE, O., March 6.—The coroner is still taking evidence in the Moll murder case. A man who gave his name as Jim was prowling around the locality about 1 o'clock on the night of the murder, and said he was looking for a man. He has since disappeared, but can be found if needed. A lady said she heard moans and screams, then the hurrying of many feet, about 3 o'clock of that fatal morning.

Heavy Snow Slide.

DENVER, March 6.—A special to the Republican from Salt Lake City says: There was a heavy snow slide in Little Cottonwood canyon Wednesday afternoon, one quarter of a mile below Alta. Barney East, Hans Olson, August Hausman and John Ford were buried in the slide. The first two being killed. The other two were rescued. Five other men were caught, but escaped without injury.

We will tell you. To cure a cold quickly, it must be treated before the cold has become settled in the system. This can always be done if you choose to, as nature in her kindness to man gives timely warning and plainly tells you in nature's way, that as a punishment for some indiscretion, you are to be afflicted with a cold unless you choose to ward it off by prompt action. The first symptoms of a cold, in most cases, is a dry, loud cough and sneezing. The cough is soon followed by a profuse watery expectoration and the sneezing by a profuse watery discharge from the nose. In severe cases there is a thin white coating on the tongue. What to do? It is only necessary to take Chamberlain's Cough Remedy in double doses every hour. That will greatly lessen the severity of the cold and in most cases will effectually counteract it, and cure what would have been a severe cold within one or two days time. Try it and be convinced." Bret Harte's Literary Seclusion.

Unlike many authors, Bret Harte never does an ambitious piece of literary work amid the din of the city. Whenever the plot of a story gets thoroughly crystallized in his mind he repairs to a quiet suburban retreat just outside of London, and there he works. And in this little nook the author is at present hard at work upon a new story of considerable length. Only a few of his closest friends know the whereabouts of his cave of seclusion, and even these he has never asked to join him there. The novelist works steadily when he is in seclusion, and stops only for an hour's walk every day. When at work his diet is a very frugal one; he retires early and is up just after dawn, working often several hours before he has his morning coffee, eggs and rolls. For two months he will keep himself thus secluded, then, returning to London, he places his manuscript in the hands of his publisher and considers his work done, for Bret Harte hates proofreading.—Edward W. Bok's Letter.

A Nose from a Cat's Ribs.

A Decatur young woman has recently been operated upon successfully in a manner that will excite surgeons. The patient is a young woman who, when a child, had her nose broken, and as a result of the decay of the bones the bridge of the nasal organ had been completely lost. The patient was etherized and a transverse incision about three-quarters of an inch long made directly between the eyes, extending down the bone. A small chisel was then introduced and all the soft parts separated from the bones, from the top of the nose to the forehead, and about one inch on either side of the median line out on the cheeks.

When this had been done a half grown cat was quickly chloroformed and pieces of four ribs, each two inches in length, were taken from its side, rapidly cleaned of all superfluous flesh and then inserted into the wound so that they raised up the skin, thus forming a good solid bridge. The wound healed in four or five days, and the slight scar is almost invisible.—Decatur (Ills.) Cor. New York Herald.

The Latest Rat Story.

Mrs. I. J. Fiske was the victim of a bold and daring attempt at robbery the other night at her rooms on State street, Columbus, O. The thief was a big rat, and the plunder which he nearly succeeded in carrying away was the lady's gold watch and chain. Upon retiring she placed the watch on a dresser in the sitting room. About midnight Mr. Fisk was awakened by a noise in the room. Turning on the light he found the rat dragging the watch toward a hole near the water pipes, which he had nearly reached. The rat had taken the watch from the dresser, drawing it nearly twenty feet. In a minute more he would have disappeared with his plunder.—Cincinnati Enquirer.

Railroad Sold.

NEW ORLEANS, March 6.—The New Orleans and Gulf railroad, known as the "Shell Beach" road, was sold at United States marshal's sale yesterday for \$125,000. F. B. Kruttschnitt, Richard Irwin and T. J. Fowler were the purchasers and sole bidders. The road was seized upon the suit of the Central Trust company, of New York.

Inquiring Into an Outrage.

VIENNA, March 6.—It has transpired that Helena Markovic and a female accomplice, who tried to kill King Milan in 1882, were strangled in prison. The exposure has created such a sensation that Milan now demands that Garaschamine, who was premier at the time, shall institute an inquiry as to the facts.

OUR NEIGHBORS.

SARDIS.

Abie Rees, Jr., with his family, this week to his new purchase, the Clarke farm.

Ed. Allen, an ex-Sardisian, is here from Norton, Kansas, organizing a colony to go West with him this spring.

Doc, Tucker raised, in 1890, with his two little boys on six acres \$901.30 worth of tobacco on the Farm of the same name.

Mrs. Ben Wood and Mrs. Len Y. Browning were the pleasant guests of Mrs. C. C. Arthur at "Desha Glen" Thursday.

Enoch and James Clarke, of West Liberty, have rented a farm near Sharpshurg, and with their mother and family will remove this week.

Winchester Rees now has a farm and house all to himself. Where is his mother or the widow who will grace the board and flag sunshine into the deserted manor? Confidential proposals received and answered at Sardis postoffice.

The Shamoun, Sardis and Robertson County planters who sold to Tom Best, Helena, at prices ranging from 10 to 12 1/2 cents per pound, have delivered and report good weights and satisfaction all around—February delivery in stripping order.

Mr. James Asberry and wife, of Fern Leaf, spent Sunday with Mr. and Mrs. W. S. Proctor. They took the blue ribbon on Holman Boulden as master of the house, having built their new and elegant twelve-room residence at the above named place.

Mr. and Mrs. Tom Hopper have gone to house-keeping in Mayslick. They had no trouble to set up, as their bride presents furnished everything useful and ornamental for the household. Though not privileged to see them "pass the Rubicon," (and they were both prime favorites with the writer) he wishes them many years of wedded, matchless, blissful, loving and contented sources of comfort and springs of joy.

Wm. Granville, the veteran surveyor of Fleming, pike in his 72nd year, surveyed the W. P. Clarke farm. He is very brisk on foot and handles the compass and chain like a young man. He has, during his long experience, surveyed nearly every farm in Fleming county and many in Mason. He divides that work in this section with W. C. Delham, surveyor and civil engineer, Maysville, who recently made an accurate survey of the lands of the late William Forman in Mason and Fleming.

Some pestiferous epistolarian (not having the fear of ye correspondents is writhe before his eyes) sent Capt. Jackson an anonymous letter: "Fie! fie! 'Though all others are left out, let not the reporter be crowded," says the great Brook-lyn publisher. We all think the letter a good one, and there is not one of the tribe that is a just fellow. "That doeth good and smetheth not." But for the Captain's crisp and newsy items, we should be heartily benighted as to the day's and night's doings of the antiquated village. So clear, true, and ind, and let's have more of your social linkings of wit, humor and invention to brighten and better social life.

Rumor has gone forth throughout all Fleming and the counties thereunto adjacent that in the town of Maysville, in the village of Fairview, in the church of the Disciples, a loganomic just will take place between Elder John S. Sweeney and Rev. J. B. Moody, the former representing the Christian and the latter the Baptist Church. The doctrinal differences of the two denominations will be discussed in a way not equaled since the days of Campbell and Rice in the famous Lexington debate. Both are representative men and have much experience in the debate, and we shall expect to be entertained and enlightened as every salient point between Dan and Beersheba will be brought out and thoroughly sifted. The neighborhood is given to hospitality, and visitors will be well cared for, *non verum*.

MAYSICK.

Mr. Benj. Holt, of Maysville, made us a short call Wednesday.

Mr. Mary Tom Wheatley, of Sardis, has been visiting Mrs. J. A. Jackson.

Mrs. Ella Crowell, of Maysville, has been visiting the family of Jasper Wheatley, near this place.

"Tis said by some last Tuesday night was the coldest of the season. Ice is from 1 1/2 to 2 inches thick.

Walter M. Myall left on Thursday morning to visit his sister, Mrs. W. J. Jackson, at Shawhan. They are all sick.

John Browning, of Upper Blueicks, is visiting his old friends in this place. He was years ago a lad on our streets.

R. L. Goodmaster and Miss Nellie Tipton, of Mt. Sterling, stopped at the Stenward House at 11 o'clock last Wednesday night on their way to Maysville.

Another cold wave struck us last Tuesday night. Ground frozen hard Wednesday morning. Such sudden changes are very trying on the constitution.

Those who have been running accounts with Burgess Taylor will please call and settle with J. A. Jackson at once. He needs the money and it is past due.

Lane & Worrick, of Maysville, were here a few days ago to put in a bid for the remodeling the Christian Church. Their work is sufficient to recommend them.

Miss Mary Arthur, a young lady well and favorably known in this community, who was raised in our midst, was married March 4th to Mr. William Claiborne, son of Robert G. Claiborne, deceased, of Kentucky, Mo. We congratulate Mr. Claiborne on his good luck in securing for a companion such a noble and accomplished lady.

ORANGEBURG.

James Card moved March 3rd to the Helena neighborhood.

A family by the name of Dorsey, who moved into our neighborhood recently, are both deaf and dumb.

Robert Moody commenced school here Monday, but there is not a very large attendance.

Misses Reita and Pearl Cooper are visiting their uncle near Reeder, Mr. E. O. Bullock.

OBITUARY.

Mollie Riggen Gardner, wife of Archie Gardner, merchant, died at Reeder, Mason County, Ky., on the 1st day of March, 1891, of meningitis, aged thirty years and seven months.

Her illness was short, extending only over a period of fourteen days, during which time her dear relatives and friends, constantly made loving, but unavailing effort to alleviate her suffering, and day the angel of the Grim Reaper, she bore up under pain and disease with Christian fortitude, expressing often her resignation to the will of God and her trust and hope of a blessed hereafter beyond the grave. Her death was peaceful and triumphant. She was a devoted wife, a loving mother and an affectionate sister and daughter, as well as a kind and sociable neighbor; and though the vacant chair around the hearth can never again be filled, and mother's arms shall no more encircle the little ones, yet we do not sorrow as those who have no hope. Mollie has only "gone up higher," only a short time ahead, and "some other day" her husband and wife, mother and children, shall again be united where partings are unknown. She was interred in Mt. Olivet cemetery. The Rev. Mr. Peeples, of Mt. Carmel, assisted by the Rev. Mr. McGarvey, of Tolleboro, preached the funeral sermon from Isaiah 63: 1-6, previous to the sight of the Lord is the death of his saints. A large concourse of friends followed the remains and assembled in the church to take final farewell of the loved one.

"Asleep in Jesus," the choir as the friends were about to take their last look at the form so soon to be hid from view. "Asleep in Jesus" the calm, still face seemed to say as he looked up from the casket, and had our ears been less heavy perhaps we could have heard.

The freed exultant spirit sing.
Oh, Grave where is thy victory,
And where, O Death, thy sting?

F. E. JAKOWITZ,

Agent C. and O. Railway.

AN OLD FASHIONED MAID.

She can peel and boil potatoes, make a salad of tomatoes, but she doesn't know a Latin noun from Greek.

And so well she cooks a chicken that your appetite 'twould quicken, but she can not tell what's modern from antique.

She knows how to set a table and make order out of bable, but she doesn't know Euripides from Kant.

Once at making pies I caught her—Jove! an expert must have taught her—but she doesn't know true cloquence from rant.

She has quite a firm conviction one ought only to read fiction, and she doesn't care for science, not a bit.

And the way she makes her bonnets, sure is worth a thousand sonnets, but she doesn't yearn for "culture," not a whit.

She can make her wraps and dresses till a fellow fast confesses that there's not another maiden half as sweet.

She's immersed in home completely, where she keeps all things so neatly, but from Browning not a line can she repeat.

Well, in fact, she's just a woman, gentle, lovable and human, and her faults she is quite willing to admit.

'Twas foolish to have tarried, so we went off and we're married, and I tell you I am mighty glad of it.

—Nathan M. Levy in Judge.

Messrs. J. James Wood and M. C. Russell appeared in behalf of the business men of the city and the Commercial Club to urge Council to do all in its power to encourage trade from Ohio. They thought that one way to do this was to reduce the wharfage collected from the ferry. Captain Phister, in return for this, was willing to reduce the ferriage on wagons and other vehicles, and do all he could to induce the people across the river to do their trading in Maysville. Mr. Phister also appeared and talked for some time. He proposes to run the boat for all there is in it, and do all he could to encourage traffic and bring trade to Maysville. The present boat was not what he wanted, but he intended to have a new one at no distant day. The matter was referred to Committee on Laws and Ordinances and Committee on Wharves and Ferries. They met this afternoon at the council chamber, and will likely grant Mr. Phister free wharfage or make a reduction.

Marshal Hedlin reported, for committee, that the Amazon fire engine had been sold to the town of Flemingsburg for \$500, the Flemingsburg parties to take it on trial for two weeks, and accept it if it gives satisfaction. He also reported that the company afterwards voted to keep the engine, and he wanted to know what he should do. Council authorized him and his committee to carry out the contract of sale.

The matter of collecting delinquent taxes for years 1887, 1888 and 1889 was referred to committee with power to act.

The Committee on Internal Improvements was authorized to improve the

gutters on the Lexington pike, south of West Third street, to prevent flooding of property.

The following permits were granted: B. F. Williams; to erect a two-story frame house on the West side of Union street, between Second and Third.

J. Hamilton; to improve, repair and enlarge frame stable on north side of alley between Second and Front, Fifth ward.

Wm. Scott, colored, asked for license to run a dance house on Front street. His request was laid on the table.

The rules were suspended and an amendment to the dog ordinance was passed. It makes all animals of the dog kind in the city subject to the tax in the original ordinance, and also fixes a penalty for harboring dogs on which the tax is not paid.

The matter of erecting a new bridge across Limestone creek was continued in hands of committee. President Cox reported that new supports had been placed under the old structure and it was now perfectly safe. He also reported he had prepared plans for a new stone bridge that would prove thoroughly substantial and lasting. It was suggested that the bridge be placed above high water mark, and that the street be raised so as to give a grade crossing of the C. and O.'s track.

The petition of Jim Bass, colored, to erect a small cottage on Grant street extension was referred to committee.

The order allowing Levi Cain \$2.25 a week was revoked.

JOHN BRAMEL.

His Death Yesterday - He Was a Pioneer of the County and a Wealthy Farmer.

Died, Thursday afternoon, at 4:30 o'clock, at his home near Taylor's Mill, John Bramel, aged nearly seventy-nine years, of general debility.

Deceased was a native of St. Mary's County, Maryland. His parents emigrated to this county shortly after his birth, and settled near Lewisburg, where the deceased's life was spent. He was a man of great thrift, and by his honest, industrious and economical ways amassed a considerable fortune. For years he and his brother Mr. Turner Bramel, a man of like characteristics, with whom he lived, have been partners, and the two are among the wealthiest farmers of the county. Deceased died a bachelor. He leaves several brothers and sisters. Mr. John T. Bramel, of the firm of Melvain, Humphreys & Bramel, is a nephew.

The funeral will take place to-morrow at 10 a. m. at the family residence, services by Rev. J. E. Wright. Burial at Maysville cemetery.

The diamond photos are all the go. Only \$1.50 a dozen at Kackley & Cady's gallery. Cloudy weather preferred for making sittings.

Mrs. SARAH BRASLEY, wife of Jephtha C. Brasley, died a few days ago at their home several miles north of Aberdeen. She was seventy-six years of age, and was a native of this county, her maiden name being Shelton.

MATT C. CLAY, a former respected citizen of Mt. Sterling, and ex-Sheriff of Montgomery County, has left for parts unknown, so it is alleged, and several of his confiding friends hold his checks that have turned out to be worthless.

THERE were four additions to the M. E. Church last evening, three to the First Presbyterian and one to the Christian. Three persons were baptized at the last named church. Services at all the above churches at the usual hours this evening.

The incoming K. C. train yesterday morning narrowly escaped being badly wrecked, just beyond Carlisle. A broken rail caused two coaches to leave the track, and they came near rolling over a steep embankment. No one hurt and but little damage done.

Mr. C. BRUCE WARBINTON, of Chillicothe, O., is on a visit to his sister, Mrs. E. Martin. Mr. Warbinton is an old Maysvillian, and served as City Marshal during the years Judge Coons and Captain Hutchins were Mayor.

MR. VICTOR WINTERIDGE, of Cincinnati, wedded Miss Sallie Wilson, March 4th, at her home in Bourbon County. The bride has many friends in this city and county, having visited here occasionally of late years. The couple will spend a month in the "Sunny South" and then take up their residence in the Queen City.

PROFESSOR J. LEGRAND SHRETT will give another series of twelve lessons in spencerian penmanship at Miss Nancy Wilson's, commencing Saturday evening, March 7th, at 7:30 o'clock. During the past two weeks he has changed the hands of young ladies and gentlemen from coarse, illegible scrawls to a plain, graceful, rapid style, exciting a great deal of favorable comment, which is well deserved. The Professor charges \$1.50.

MAMMOTH MINE ACCIDENT.

The State Will Take Some Action Over the Recent Disaster.

HARRISBURG, Pa., March 6.—The report of the legislative committee appointed to investigate the accident at the Mammoth mines, near Scottsdale, by which 107 miners lost their lives, have submitted their report to the legislature.

It says that the committee are of the opinion, taking into consideration the testimony of the several witnesses, and our personal examination of the mine where the explosion occurred, and the condition we found it in the vicinity of the explosion, that the accumulation of gas was not very large, but that the explosion was intensified by the accumulation of coal dust in that particular section of it, and that most of the men working in that section who lost their lives, lost them chiefly from the result of after-damp, which always follows an explosion of this character. Taking into consideration the testimony of the mine inspector of the district and that of the mine boss, and also the measurements of air currents made by them and submitted by them to our committee, we are of the opinion that the Mammoth coal mines were reasonably well ventilated. We are also of the opinion that the mine foreman and the inspector of the district did not make such careful examinations of the air currents at or near the face of all the headings as is contemplated by the mine law.

A Victory for Labor.
CHICAGO, March 6.—The executive committee of the world's fair directory has practically agreed to concede the demand of organized labor in the city for an eight-hour day and the appointment of a board of arbitration. These are two of the five propositions submitted to the directory by the labor committee. As to the employment of union labor as far as possible and a minimum rate of wages of \$1.70 per day of eight hours for unskilled labor, the executive committee is not ready to commit itself. The whole subject will come up for final disposition Friday night.

Depot Robbed.
SHREVEPORT, La., March 6.—About 7 o'clock last night three masked men entered the Shreveport and Houston railroad depot, and while one covered the watchman with a revolver and kept a lookout the others opened the safe from which they secured nearly \$100.

About 2 o'clock in the morning the office of the Shreveport and Arkansas railroad was entered, the safe blown open, and a small sum of money taken. It is thought the same men who robbed the Houston depot committed this robbery. There is no clue to the thieves.

A Two Million Dollar Bill.
WASHINGTON, March 6.—The Philadelphia members of congress and others were made happy last Monday by the passage of the bill authorizing the erection of a \$2,000,000 mint building in that city. It now turns out that by an oversight no appropriation for the erection of the building was embodied in the bill or in any of the general appropriation bills, therefore the authorizing act cannot be put into effect at present, or at the earliest, not until the next congress provides the necessary appropriation.

Railroad Changes Hands.
CHATTANOOGA, March 6.—It is stated here on good authority that J. W. Mackey has taken hold of the projected Chattanooga and Evansville railroad and that the line will be built as rapidly as the work can be done. The original survey was through the rich coal region of Walden's Ridge, but it is to be extended to a connection with a line of steamers at Port Royal or Brunswick, Ga.

Sent Up for Twenty Years.
PHILADELPHIA, March 6.—Robert Hackett, a notorious sneak thief, was yesterday sentenced by Judge Gordon to twenty years in the Eastern penitentiary for the larceny of clothing and other articles from dwelling houses. Since 1870 Hackett has served nineteen years in prison for similar offenses, his last sentence having expired in October last.

Another Requisition Refused.
ALBANY, N. Y., March 6.—Governor Hill has refused to extradite Colbert, a Danbury, Conn., horse thief, on a requisition signed by Morgan C. Bulkeley, as governor. In a long message he reiterates his opinion that Morris is governor of Connecticut.

Where Will the Money Go?
COLUMBUS, O., March 6.—State Auditor Poe is investigating a matter of special interest to the taxpayers generally growing out of the direct tax of \$1,300,000 due the state from the general government under the recent act of congress. He thinks the legislature should refund the money to the eighty-eight counties.

More Base Ball Trouble.
ST. LOUIS, March 6.—At the instance of President Von der Ahe, of the American Association, a warrant has been issued for the arrest of Mark Baldwin, of the National League, charging him with conspiracy in the securing of American Association players for the National League.

International Association.
NEW YORK, March 6.—The International Association of Professional Base Ball clubs has been admitted to membership under Class B. These club members are as follows: Buffalo, Toronto, Rochester, Syracuse, Troy, Albany, Newark and New Haven.

The Wound Proved Fatal.
NEW YORK, March 6.—Nicola Piers, the young Italian who was shot on Monday by his lover, Pasqualina Lubertelli, died yesterday in the hospital.
